Ray Lanier rayhLanier@cs.com	Willoughby Lake	Greeter Program Milfoil Funding	Westmore Association & Town of Westmore	DEC, Town and Westmore Asso. Shared cost	Reliable funding. Have a state program to fund AIS programs. That would be AIS sticker required for all watercraft powered and not powered including out of state	Contact state reps to have a bill put forward that would support and AIS program
Mary Rossier northhero@att.net	Pelots Bay Northern Lake Champlain	Pervasive growth of invasive species and the cost of removing them. PBRA hopes to help other bays resolve their problems but the high cost of moving the equipment to a bay with a small number of home owners can be prohibitive	State of Vermont Town of North Hero PBRA (volunteers and operators)	Continuing to harvest from shore to whatever distance necessary to harvest to a depth of 6 feet	We would like to see better control of land runoff going into the lake. We are working on an improved website to better educate our community about ou work. We will also be more present on social media.	Your continued support with articles each week in the paper regarding the condition of the states lakes and ponds is very helpful. That being said additional funding is vital for us to be able to expand into areas that have never been harvested
Arthur Curicillo cleo.curicillo@gmail.com	Lake Eden	Run off with in the Lake Eden watershed into Lake Eden	Vermont Watershed Division of VTDEC, Lake Eden Association, Town of Eden, Selectboard, Road Crew,Regional Planning Board	Danielle Ouzarki the watershed coordinator VTDEC, is setting up partnerships with a wide variety of agencies, and setting up a plan of action to deal with the overall issue. Then we'll be looking into applying for	That the negative effect of runoff into the lake will end as a result of dealing with the runoff
